

HOW CAN I HELP?

We must all do our part to conserve and protect our most precious resource.

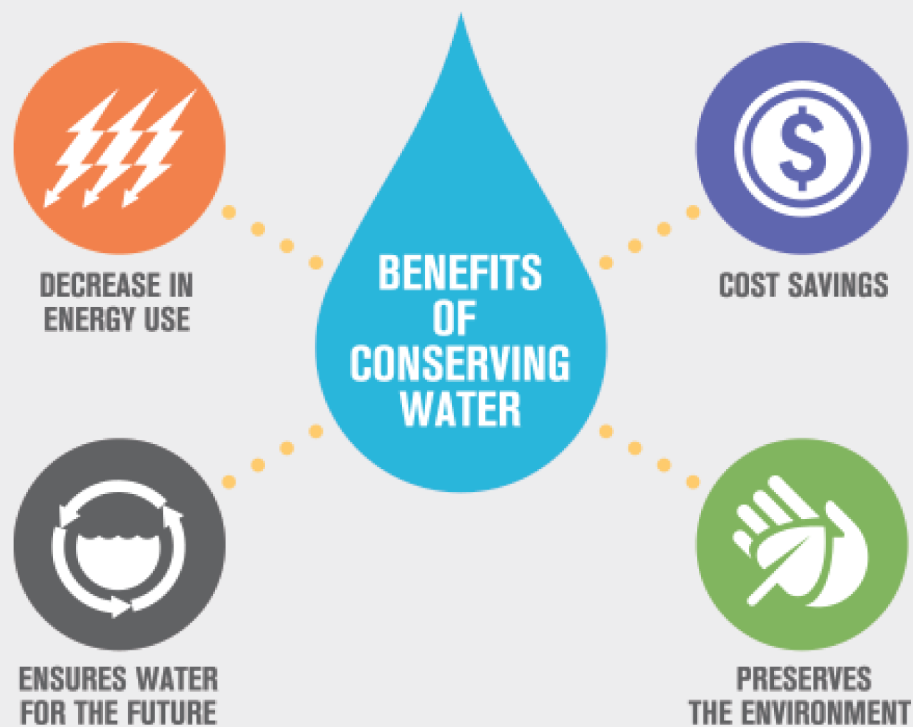

ARIZONA WATER FACTS 

ArizonaWaterFacts.com #WaterYourFacts

Water is vital for life. It supplies food, jobs and energy, it keeps our cities operating. Water is the foundation of Arizona's economy. Without it, there is no Arizona.

We must all do our part to conserve and protect our most precious resource.

**SAVING WATER IS EASY! EVERYONE CAN DO IT.
EXPLORE WAYS TO SAVE WATER AT HOME.**

DESERT LANDSCAPING

Up to 70% of the water that you use at home is used outdoors. By planting desert adapted landscape using low-water-use plants instead of grass you could reduce your outdoor water usage significantly.

Watering Schedule

Proper watering will keep your landscape healthy and beautiful throughout the year.

Workshops

There's a variety of classes and workshops available around the state that you can participate in to learn more about outdoor water conservation. Many of these events are free.

REBATES

Many Arizona cities and water providers offer rebates to help you conserve water indoors and outdoors.

Rebates can be for high-efficiency fixtures and appliances as well as for converting grass to xeriscape.
